GLOF ALERT

GLOF/Met-3 (7)/2020/ 6723

Issue Date: 5th July, 2024

Issue Time: 4:00 PM

Due to persistent higher than normal temperatures and expected rain spells from 6th to 8th July in Gilgit-Baltistan (GB) and upper parts of Khyber Pakhtunkhwa (KPK), there is an increased likelihood of triggering GLOF events, flash floods, landslides, and a rise in river stream flows due to melting. Warmer conditions are expected to persist until the mid-July. The district administration, concerned line departments, and local communities are advised to remain vigilant and observe precautionary measures in vulnerable areas.

Dr. Muhammad Atif Wazir
Deputy Director
For Chief Meteorologist, PMD
